At the start of each turn, you may roll 1D6. On a 4+, the Witch Elf gets double her normal Attacks for the rest of the combat. While Frenzied, the Witch Elf may never break pinning, may only approach the nearest opponent and attack in hand-to-hand, and once defeating that opponent must immediately move to the next closest opponent to fight, and so on, until all Monsters in sight are defeated or have fled.

## • THE WITCH ELF •

Of the Dark Elves of Naggaroth, enemies of the Elves of Ulthuan for centuries, none are more feared than the frenzied Witch Elves who worship Khaine, the God of Murder. Witch Elves are among the most cruel, evil and savage of all Dark Elves, and are said to bathe in the blood of their enemies ... as well as to partake in numerous other unspeakable rituals and acts.

Dark Elves, however, aside from their demeanor and dress, are largely indistinguishable from their High Elf and Wood Elf kin — and certainly they can fool unknowing humans. Situations would be rare indeed to bring someone as bloodthirsty as a Witch Elf among the ranks of the heroic Warriors, but perhaps this Dark Elf could have had a change of heart ... or perhaps she is simply carrying on a “heroic” charade, all the while continuing her hidden plots and intrigues.

The skills of a Witch Elf can well be useful in the depths of the dungeons, for none can match her savagery in battle when she breaks into an uncontrolled fighting frenzy. Woe to those who would dare to stand in her path!
